

3D printing and scanning trends 2018

November 1st – 2nd, 2018

Liberec, Czech Republic

3dtrends.tul.cz

Conference Introduction

On behalf of the organizing committee, we would like to invite you to participate at the 3D trends 2018 conference. It is our pleasure to announce that this year's event will be organized in cooperation with Department of Material Science and Engineering from North Carolina State University. This department is a leader in 3D printing technologies in the USA.

All the papers accepted in the peer-review process will be published in regular issue of MM Science Journal (indexed in Scopus since 2014).

SCIENCE
JOURNAL

We hope that you will enjoy the Conference and that you will find the presented information and knowledge personally beneficial. We also hope and trust that you will enjoy your visit here in Liberec, Czech Republic.

Why to participate 3Dt 2018?

Researchers

- Present and discuss your research and results
- Opportunity to meet colleagues from the same area of interest
- Exchange of knowledge and information
- Direct contact with manufacturers of 3D printing and 3D scanning systems

Companies

- Everything about additive manufacturing at one place
- Attendance of leading manufacturers of 3D printing/scanning systems
- Presentations of the latest advances and trends in the field
- Hands-on demonstrations of various 3D printing devices

Do not hesitate to register.

The early bird registration is available no longer than August 15th, 2018.
